2022 FASHION 20s GIRL

# About us...

We are a private clothing fashion company which consist of 8 tailors, and 4 hair stylists. People call us 12 gods of Olympus. We like to design fashion clothing based on our symbols, and particular hair style for our new fashion. Owing to different seasons, we have a variety of design. Each year, there will be a specific theme for our design. In 2022, our theme is *20s girl*.

# Why do I choose 12 Gods ?

The reason why I choose fashion to be my creative project is due to the fondness of dolling up myself. 12 Gods are the materials I can adopt from. Their personalities are all distinct and specific. Based on their features, I can design which fashion fits them well. Also, I edit this magazine for the works.
